Welcome onboard our trains & buses

A warm welcome onboard HarlonTransit! Our fleet consist of modern, high-quality vehicles that ensure you will arrive to your destination quickly and smoothly.

On-demand service

Waiting for a train is a thing of the past with our new on-demand service style!

All our rail services now operate as on-demand service, with your train rolling into the platform as soon as you enter it, eliminating all wait time

Please ensure you board the correct train, as some platforms have multiple services stopping at it.

Get around easily with HIWS

All our stations are equipped with modern wayfinding equipment to ensure you find your way.

Check #transportinfo for updates

Any service disruptions and new services on the network will be posted in the **#transportinfo** channel on Discord - make sure to join the transportinfo ping role to ensure you are notified of any service updates!

Information regarding bus service

A bus network redesign is currently ongoing, hence bus service is as of now severely limited.

The redesign will see the implementation of the on-demand service style already used on our rail services, hence eliminating wait times and making your journey quicker.

Please stay up to date before you travel by using **#transportinfo** on the Harlon Discord server.
